

THE TIA FOUNDATION NEWSLETTER

Project Recap

Dear Beloved Supporters of The Tia Foundation,

We are thrilled to share the inspiring highlights from our recent project in San Miguel el Alto, Jalisco. Nestled in the heart of Los Altos, this picturesque town provided an ideal setting for our work to bring self-sustaining healthcare and empowerment to its vibrant community. With over 32,000 residents now supported through our efforts, this project marked a significant milestone in aiding more than 800,000 people in our mission to serve rural areas across Mexico. The warmth and generosity of the municipality and its people made a lasting impression, reinforcing the power of collaboration and trust in achieving meaningful change.

San Miguel el Alto, Jalisco

We're proud to announce the graduation of 38 new Promotores, trained to deliver vital healthcare and emergency interventions. These individuals, comprised of primarily women, displayed remarkable dedication to improving their community's health. The graduation ceremony, attended by over 300 people, including a local congressman, was a proud and joyous occasion. This enthusiastic turnout reflected the importance of the program and the hope it brings for the future. These new Promotores are now equipped to address various health challenges, ensuring a lasting impact in San Miguel el Alto.

Making a Difference, One Life at a Time

Fausta's Story

Jorge Humberto, a Promotor, visited Fausta, a woman in her 90s living alone in San Isidro. Despite her age, Fausta kept her home spotless and full of spirit. Her toenails, neglected for years, had become severely overgrown. With help from Temoc and America, her nails were carefully trimmed as she sang. Jorge ensured she had ongoing support, as her family abroad could not help.

A Life-Saving Intervention

A gentleman with dangerously infected leg ulcers was treated during our trip. Temoc and America cleaned the wounds and removed debris while Agueda, another Promotora, monitored his recovery. He was given medicine and supplies to continue treatment, ensuring his condition improved safely.

Supporting the Youth

In San Isidro, a middle school teacher brought her class for medical check-ups. Many students had fungal infections on their hands and feet. The teacher ensured they received treatment, nutritional counseling, and psychological support, recognizing the importance of mental health in their recovery.

A Collaborative Effort

Our team worked tirelessly to prepare medical kits in a local Airbnb's garage, showcasing our mission's adaptability, creativity, and dedication. The garage became a bustling hub of focused activity, ensuring every kit was ready for distribution.

The warmth of the local community added to the experience, with thoughtful gestures like sharing "pajaretes" (a traditional warm milk drink) which fostered a deep sense of connection and mutual appreciation, further strengthening the bond between our team and those we served.

A Lasting Impact

The success of this project would not have been possible without your steadfast support, which fuels our mission. Your generosity enables us to reach communities like San Miguel el Alto, where accessible healthcare and education create lasting change.

The Promotores of San Miguel el Alto are now equipped to address critical health needs, save lives, and foster a culture of resilience. Their efforts will ensure a healthier, brighter future for generations to come, and we are deeply grateful for your role in making this possible.

With heartfelt appreciation,

The Tia Team
